REJECT OFFER FOR COMPROMISE

Trolley Commuters to Fight Case to a Finish

SUBMIT PROPOSITION

To Have Rates They Ask for Put in Operation and Keep on 25-Trip Ticket at Increased Price

The executive committee of the Mount Vernon division Commuters' Association last night flatly rejected a proposition of the Washington-Virginia Railway Company for a compromise in the proposed increase in fare on that line. The compromise was submitted to the committee by Attorney Conrad Syme counsel for the commuters, it being presented by the Railway Company through him.

The railway company asked, it is stated, that the proposed increase become effective as they ask for, but they, however, agreed to let the twenty-five trip ticket stay on at a greatly increased rate.

The members of the executive committee of the commuters' association held a meeting in the Westminster Building and discussed at length the fight against the railway company. Afterward they proceded to the rooms of the chamber of commerce and found officials of that organization and others with Mr. Syme, and it was her that the members of the executive committee voiced their disapproval of any such compromise. It was not regarded as a compromise, being simply permission to increase the rates without a hearing.

It is expected that the Interstate Commerce Commision today or tomorrow will enter an order suspending the proposed increase in rates and then will fix a date for the hearing.

The commuters propose to fight the case to a finish and feel satisfied that they will win out.

Flood of Visitors To Harding Grows

St. Augustine, Fla., Feb. 11.—The quadrennial tidal wave or office seekers and advice givers that always engulfs a President-elect on the eve of his inauguration is rising steadily about Warren G. Harding's headquarters here.

Screened away from Marion by the conference of "best minds," and then held at bay for three weeks while Mr. Harding was on vacation, the rush of the job-hungry and the hobby-riders promises now to assume the proportions of a deluge. Its force is not softened by the circumstance that republicanism has not tasted of the plums of patronage for eight years.

TORNADO KILLS 32, INJURES 25

Havoc Wrought at Gardner, Ga., Over Five Mile Stretch

40 HOMES DESTROYED

Several Bodies Found in Trees—Scene of Horror and Comedy Mark Destructive Work of Storm

Oconee, Ga., Feb. 11.—A tornado that struck the Gardner settlement, one mile from here, shortly after noon yesterday, brought death to two white persons and 30 negroes and serious injury to five white persons and a score of negroes.

A stretch of land extending almost to Toomsboro, nearly five miles long and about half a mile wide, is barren as a prairie today, not a building or tree being left standing.

The white dead are Benjamin Orr, 14 years old, who was decapitated, and the 3 year old daughter of E. L. Minor, manager of Shepherd's commissary at the plant of the Cleveland-Oconee Lumber Company.

Eighty-two children and three teachers were in a school building on the edge of the Gardner settlement when the tornado struck. The building was twisted to pieces and the fragments scattered for miles. Children were picked up by the wind and carried for some distance, but it was announced last night that only one was seriously bruised. Approximately 40 houses were blown down in the Gardner settlement. The Shepherd Bros.' commissary at the big lumber plant was turned to kindling wood. Orr and four negroes meeting death there. Ten feet away from the commissary the general office of the Cleveland-Oconee Lumber Company was untouched.

The 15-acre plant of the lumber company was not seriously damaged, although millions of feet of lumber were scattered. The tornado spent its force locally immediately beyond the plant of the lumber company, in the settlement of 40 houses and four stores. Most of those residing there were negroes.

In the rear of the houses was an open field, extending for nearly a mile from the Oconee Railroad Station to the lumber mill. It was into this field that men, women and children were carried to their death from their seats at dinner tables.

Coaches were commandeered at Tennille, 11 miles away, and four doctors and 46 persons were obtained in a relief party and the train rushed to Oconee.

Doctors found one negro boy with a board driven into his forehead. The youth was alive and it is believed he will live. The body of a 3 year old negro infant was found at the root of a tree, the top of which had been twisted off. A negro man and his wife were found more than a hundred yards from their home, lying side by side in the road, both dead. The bodies of several small negroes were found in trees out of the path of the tornado, suspended on the limbs by their clothing. The bodies of grown negroes were thrown into the field in a semi-circle and in the center of the group was a goat, who stood like a statue, too frightened to move for hours after the storm had passed.

Six oak trees along the railroad were snapped off at different heights On top of one of these stumps, 20 feet from the ground, was a pillow from the bed of one of the wrecked homes.

According to residents of the community, the clouds lowered just as the employees of the lumber plant left their work for dinner. The atmosphere became extremely hot, and because of the darkness in many homes lamps had been lighted when the tornado broke.

One person on the outer edge of the storm-swept path, who escaped injury, declared he saw a string of box cars moving toward him. Then, as suddenly, he said, the box cars were reversed, and when he looked again they were once more coming toward him. These cars were found to have been blown from the rails. Chickens that escaped death in the path of the storm were in many instances plucked of their feathers. There were many animals killed.

The tornado developed during a period of heavy rains throughout this entire section. All rivers are at flood stage and still rising, and brief advices from Thomson last night said there had been a cloudburst there.

Truck of Washington Dealer And Two Men Nabbed—Trial Tomorrow

When Policeman Lawrence Padgett yesterday afternoon at 5 o'clock took in custody the driver of a truck from Washington together with his helper, which brought a load of groceries to this city, he captured six dozen bottles of peach extract, three dozen essence of jamaica ginger and a case of beverage sold to the thirsty, known as Horka Vino. The driver and his assistant were required to leave bond for $250 each and the owner of the truck gave a check for $500 and a bond, furnished by surety company, for $2,000 was given for the truck. Under the law where trucks deliver such they may be confiscated and sold and proceeds turned over to the state. Police are going to make a crusade against Washington dealers who bring over to this city drinks that are forbidden by law. It is stated that their delivery is a violation of the law and is the same as a violation of the prohibition law.

Hall Case Given Jury

Expected Dry Agent Will Know His Fate This Afternoon

Manassas, Va., Feb. 11.—William C. Hall, former State prohibition inspector, took the stand in his own defense yesterday as the final witness in his third trial here for the murder of Raymond C. Shackelford and Lawrence D. Hudson, alleged bootleggers, at Fisher's Hill, Va., on March 26, 1919. The case was given to the jury at 3:20 this afternoon.

At the conclusion of Hall's testimony, in which he adhered to his account of the killings given at the previous trials, Judge Samuel G. Brent, presiding, delivered his instructions to the jury and final argument was begun by the prosecution.

Hall testified yesterday that Shackelford fired the first shot in the encounter which followed the attempt by Hall and the prohibition agents accompanying him to place the alleged bootleggers under arrest.

Shackelford's shots were directed at him, Hall said, when he stepped on the running board of the alleged whisky runners' automobile after it had shot forward in an attempt to escape. After he had returned the fire and shot Shackelford twice, Hall said, Hudson, the other victim of the tragedy, grabbed him around the neck and struck him over the head with a whisky bottle. The witness testified that he then turned his gun on Hudson.

Other witnesses yesterday were W. B. Dunlavey, one of the prohibition agents in Hall's party and Joseph Williams, chauffeur for the party and eyewitness to the shooting. Both corroborated testimony given yesterday by H. F. Sweet, another agent in the party, that the first shots were fired by occupants of the alleged whiskey car.

Three Weeks Boy Left in Basket on Steps of Nurses' Home of Hospital Last Night

A baby boy about three weeks old, securely wrapped in a basket was found at 10:45 o'clock on the steps of the nurses' home of the Alexandria Hospital by Mrs. Frances Monroe. There was a bottle of milk in the basket beside the infant and there was also note dated Washington, D. C., addresed to the "Orphans' Home," asking the authorities of the hospital to take good care of the child and saying that the mother was going out to work and would return in a few days for the child. France Open to League Changes

Paris, Feb. 11.—The Petit Parisien, in a column article on the first page yesterday, urger Premier Briand publicly to address President-elect Harding on Franco-American relations immediately after March 4, explaining that France cannot renounce the League of Nations because it is linked too strongly with the treaty of Versailles, but announcing that France is ready to examine and doubtless will approve any American amendments.

The Petit Parisien expressed the hope that the United States will ratify the treaty and league covenant and "not attempt to avoid responsibilities."

"France does not demand the impossible from Germany," explained the newspaper, adding: "We seek America's aid for a world revival of peaceful commerce and good will."

According to the Petit Parisien, the government has "judiciously advised" M. Jusserand, the French ambassador at Washington, to take measures to combat the statements attributed to Bernard M. Baruch and Thomas W. Lamont in opposition to the aPris decision on indemnity.

EAT TOO MUCH MEAT SAYS HEALTH OFFICER

He Also Says Too Much Sugar In One Form or Another

HOW TO CORRECT EVIL

Urges Increase in Consumption of Milk, Butter and Cheese With a Decrease in Consumption of Meat

I have no animosity against butchers or sugar manufacturers, nor do I hold a brief for dairymen or farmers, but working in the interest of the public health, I simply desire to state some plain, scientific facts, that have been fully proven, and are easily demonstrated.

The average person consumes too much meat, also sugar in one form or another. The proper regulation of the food of the individual, has much to do with his or her power to resist disease. Hence the first logical step in disease prevention work, is by various means at our command, to endeavor to raise the powers of resistance of the people to as high a standard as may be possible. The various sanitary measures, food and milk inspection, etc., all have their part in this important work and it is comparatively easy to do it, as the Health Officer is backed up by stringent laws giving him power to enforce his demands in protecting the public.

But the most important factor in preventing disease, is the education of the public in the general principles of right living and self protection. Without the intelligent co-operation of the people the work of the Health Officer is bound to be sadly hampered. In order for us to be healthy, we must have not only sanitary surroundings and clean, wholesome foods, but such a variety of food as will supply the body with the various chemicals, ferments, bone and muscles building substances as are required to maintain the body in normal working condition and good health. That is to say with the vital powers of resistance to disease at normal. It is a known fact that majority of people suffer more or less from indigestion or constipation, or both. This is generally caused by either an unbalanced diet, or incorrect methods of cooking and eating, or lack of fresh air and exercise. A young fellow said to be the other day, "Why doctor, I can eat anything I want, and it never hurts me." Yes, he may now, but its a safe bet he won't do so 25 years from now, if he by chance lives that long! If a man is engaged in hard, mandal labor out in the open, he can consume a fairly large quantity of meat without placing too great a burden upon the organs of elimination. Candy or sweet stuff of any kind should never be eaten before meals, as sugar in any form tends to satisfy the natural craving for food. Children crave and actually require more sugar than adults, but this demand should be strictly regulated by common sense and reason. It is now known that normal nutrition requires, in addition to the regular organic and mineral foodstuffs, certain substances called food harmones, or vitamins. Milk is very rich in vitamin "a", also calcium and proteins. There is no question but that an increase in the consumption, of milk, butter and cheese, with a corresponding decrease in the consumption of meat, will benefit any person, young or old, and increase their resistance to disease. The liberal use of milk and milk products, mixed with cereals, fruits, vegetables and fish, with a reduction in the quantity of meat, will provide any family with a varied and ample diet, rich in all the necessary chemical substances, food harmones, vitamins and ferments required by the human body to maintain its vitality and resist disease. Don't clog up your system with heavy foods that the body is unable to assimilate, and which place a heavy burden upon the liver and kidneys. An ostrich can digest almost any old thing, but remember you are not an ostrich!

TO-DAY'S THOUGHT. Cato said on walking through a hall of statuary with a group of friends, "I had rather men should ask why my statue is not set up, than why it is."

Plutarch.

Tipping Review. There has been started recently a monthly magazine with a somewhat novel purpose. It styles itself "the "The Commercial Bribery and Tipping Review." It purports to be devoted to the opposition of all forms of gratuities. The first numbers are full of ginger and disclose various forms of petty bribery that are unknown to most Americans For instanse, in Akron, Ohio, the city's garbage collectors have been in the habit, according to the Tipping Review, of collecting toll from the citizens, neglecting the garbage cans of those who refused to come across with a weekly or daily stipend. One good woman whose can had been neglected for a long time, complained to the Bureau of Public Works, and an inquiry led to the discovery of the graft The city officials took prompt action and invited all persons assessed by the collectors to phone the bureau.

It seems that certain New York drug stores had to put up signs requesting customers not to tip the clerks for service. In the same city, last summer, certain of the railroad offices were discovered to have employees who received tips for Pullman reservations. With bell boys, barbers, shoe blacks, messengers, waiters, hat and coat service at restaurants, taxi-drivers, and a dozen other forms of petty graft in general practice, life to the ordinary American, at home or abroad, has become a daily routine of byway robbery.

We are glad to know that the American people at last have a champion devoted to the abolition of this iniquitous species of piracy. Certain of the larger hotels in the principal cities are already lending their aid to the cause. The Statler hotels are heart and soul in the movement; various state and city officials have expressed their approval and promised co-operation; and legislation is now being urged to cure what has always been recognized as a prevalent evil.

You have our best wishes for success, Mr. Tipping Review. More power to your good right arm!

Haiti and Santo Domingo. We have grown somewhat weary of the anti-administration papers discussing the occupation of Haiti and Santo Domingo by the American Government. They speak out of the fulness of their ignorance. For instance, yesterday's Washington Post says editorially: "With the exception of the deplorable blunder of the present administration in dealing with the Dominican Republic and Haiti, the United States Navy was never used for any but defensive purposes. The mistaken policy in the Caribbean is soon to be reversed, and the nation will then maintain its army and navy solely for defense."

According to Aesop, there was once an old grandmother Mole, who, wishing to test the common-sense of her little grandson, gave him a lump of frankincense to smell and asked him what it was. He replied, after putting it to his nose, "A lump of myrrh, grandma!" The old lady replied, "Alas, my child, you are not only blind but you cannot smell." The opposition newspapers are not only blind as to the United States policy in Haiti and Santo Domingo, but they ignore our history in Central and South America and Cuba. They forget that McKinley, in order to save Cuba from further Spanish misrule, went to war with both army and navy. That Roosevelt threatened Germany with the United States navy if she landed her sailors on the coast of a certain South American republic That Cleveland delivered an ultimatum to England in the Venezuelan case. They forget that our marines have been on Central American soil for many, many years.

They do not know that Haiti is a land with two million negroes, very little, if any, in advance of their brothers in Darkest Africa That in that country, even today, cannibalism and human sacrifice are practised and that the great majority of the natives are participants in the savage rites of the Voodoos a sect sprung direct from the wilds of the Black Continent.

Furthermore, they do not know that Germany would have had Haiti long before the World War, but for the United States. That Santo Domingo, as well, would have become the possession of some European power had this country not paid its debts and instituted temporary occupation. President Wilson is about to restore the Dominican Republic to its own government once more. As to Haiti, that policy would be a crime against civilization.

Criticise and condemn the Democratic administration, if you will, gentlemen, but at least have some semblance of respect for truth and facts.

Japanese Parliament Defeats Move to Cut Naval Building

Tokio, Feb. 11.—The House of Representatives rejected yesterday, by a vote of 38 to 285, a resolution offered by Yukio Ozakio, former leader of the Kensei Kai, or opposition party, proposing a curtailment of naval armaments. The entire Kokumin-To (Nationalist) party and some independents favored the resolution, but the government Seiyu-Kai and the Kensi-Kai party opposed it.

General Tsuda, on behalf of the Government, delivered a speech on the conditions in China and Siberia, which, he declared, were unsatisfactory and that, therefore, Japan was unable to reduce her proposed naval and army developments.

Virginia MacKay-Smith Weds Captain Boy-Ed

Lancaster, Pa., Feb. 11.—Miss Virginia MacKay-Smith, daughter of the late Bishop Alexander MacKay Smith, of the Protestant Episcopal Diocese of Pennsylvania, and Captain Karl Boy-Ed, former German naval attache at Washington, were married yesterday in Berlin.

A cablegram to this effect was received from the bride's mother by close friends of the MacKay-Smith family in this city, as published by the Lancaster Intelligencer.

Miss MacKay-Smith, with her mother, left their home in Washington last month for Germany, but nothing was said of the approaching wedding at the time.

Virginia Man Buried Alive at Goshen as Furnace Slag Slides

Clifton Forge, Va., Feb. 11.—Walter Taylor was buried alive yesterday afternoon when he, with a crew of workmen, was engaged at Goshen, near here, in loading slag. During the work a large bank of the slag commenced sliding, and Taylor was buried under the slide. Although fellow workmen turned to and worked hard to uncover him, life was extinct when they reached his body.

Taylor was well known in this section. He is survived by his mother and two brothers. His wife died here about a year ago.

Mrs. H. O. Peters, of Kansas City, Mo., whose experience with Tanlac has been nothing less than wonderful, declares her husband. After her improvement he takes it himself and his health is also restored.

"One day a friend persuaded my wife to take Tanlac and the results have been nothing less than wonderful. Her troubles have not only entirely disappeared, but she has actually gained twenty pounds in weight and now seems to be in perfect health. She has suffered for eight years with headaches, nervousness and loss of appetite and was in a badly run-down condition. She could not eat much, had pains all through her body and limbs and was so weak at times she could hardly stand on her feet. She was losing weight and gradually getting worse all the time in spite of all we could do.

"After seeing the splendid results my wife was getting I began taking Tanlac myself and before I had finished my second bottle, I was eating things I had not dared touch before in a long time. I am now eating just anything set before me and my appetite is fine. I suffered for five years with the worst kind of stomach trouble and nervous indigestion, but it has relieved me entirely. We both owe Tanlac a great debt of gratitude."

The above enthusiastic statement was made recently by Herbert O. Peters, well-known citizen of Kansas City, Missouri, residing at 534 Walnut street.

Tanlac is sold in Alexandria by Edgar Warfield, Jr., and good druggists everywhere.

Rockefeller's 1917 Income $43,000,000

Washington, Feb. 11.—That John D. Rockefeller had a total income of from $43,000,00 0to $45,000,000 in 1917, and that his income in 1918 was at least $37,000,000, and possibly as much as $40,000,000 are further deductions made yesterday after a study of the statistics of the Internal Revenue Bureau for those years.

The drop in the size of Mr. Rockefeller's income for 1918, as compared with 1917, probably was due in part to decreases in dividend payments of corporations. The new excess profits taxes then in operation took away many millions of the profits of the corporations, and thus, in turn, reduced personal incomes.

The high water mark in Mr. Rockefeller's affluence was reached in 1917, it would therefore appear. The statistics covering that year are interpreted to credit him with a net income of $34,958,604.

Woman Dies in Leap From Eighth Floor

New York, Feb. 11.—Mrs. Marion Peters, wife of Joseph R. Peters, vice president of the Fairbanks Scale Company, jumped from her bedroom window on the eighth floor of the Belnord Apartments, at Eighty-seventh Street and Broadway, early yesterday morning, while suffering from nervous depression and grippe, and was instantly killed.

Boy Murderer Dies In Sing Sing Chair

Ossining, N. Y., Feb. 11.—Last-minute efforts of influential persons failing to obtain a reprieve, Jesse Walker 20 years old, of Evansville, Ind., a sailor veteran of the war, was put to death in the electric chair at Sing Sing last night. He and Guy Nichols, also doomed to die in the chair, were convicted of killing Samuel Wolchak, stationer, at 208 Wyckoff Avenue, in an attempted robbery on Nov. 3, 1919.

Dressed in a black suit, smoking a cigar and betraying no emotion, the youthful murderer entered the death chamber at 11.05 o'clock. He was quickly strapped in the chair and State Executioner John Hulbert applied the shock at 11.07. Six minutes later Walker was pronounced dead.

Leaves $1 to Daughter For Rope to Hang Herself

Boston, Feb. 11 —One dollar with which to purchase a rope to hang herself is the rather unusual bequest found in the will of John Werner, of Peabody, which has just been filed at Salem, the county seat. Werner, who died August 20, 1920, left three sons and four daughters.

One daughter is named to receive $1 to purchase a rope to hang herself with." The alleged grievance against her is "that she caused the arrest of her father for the sake of a worthless husband and is not worth any more."

No estimate is given of the value of the estate.

2 tablespoonfuls butter.
3 tablespoonfuls flour.
1-2 cup of scalded milk.
1-2 teaspoonful salt.
A dash of cayenne.
1-4 cup of grated cheese.
3 eggs.

Melt the butter, add the flour and when well mixed add gradually the scalded milk. Then add salt, cayenne and cheese. Remove from the fire and add the yolks of the eggs. Cool the mixture and fold into it the whites of the eggs beaten stiff. Pour into a buttered baking dish and cook twenty minutes in the oven.

Cookies

1 1-2 cups granulated sugar.
3 eggs.
1-2 cup butter.
1-2 cup lard.
1 1-2 cups nut meats chopped fine.
1 pound of dates.
1 teaspoonful of soda dissolved in a little warm water.
2 1-2 cups of flour.
1 teaspoonful cloves.
1 teaspoonful cinnamon and a little nutmeg.

Roll very thin and bake in a moderate oven.

Crullers

Drain well a quart of canned blackberries, sweeten and spread the berries over the above dough with bits of butter over them. Roll and place in a pan with one-half pint of water and sprinkle a little flour and sugar over the roll. Dot with bits of butter and bake for about half an hour. Serve with a sauce made as follows:

Take 1 pint of blackberry juice, add a little water if there is not enough juice, and let boil. Thicken with one tablespoonful of flour. Sweeten to taste and add butter the size of a walnut. Cook until thick and serve while warm. This will serve five persons.

DOUGHERTY TO GET RED HAT AT ROME

Philadelphia, Pa. Feb. 11.—The Associated Press dispatches from Rome stating that Archbishop Dennis J. Dougherty of Philadelphia, would be raised to the cardinalate were confirmed yesterday. The archbishop will leave for Rome within ten days, the exact date depending upon steamer accommodations.

The ceremony by which the office is bestowed takes place at the Vatican and is a very elaborate one, making it necessary for the recipient of the dignity to be present, and also to receive the red hat from the hands of his holiness, the Pope.

Archbishop Dougherty while receiving the congratulations of close friends and churchmen who knew of the distinguished honor about to be conferred upon the metropolitan of Pennsylvanian excused himself from public comment at this time on his elevation.

This picture, painted especially for the Near East Relief by M. Leone Bracher, vividly portrays what words fail to express—the horrible sufferings of the women and children of Armenia and adjacent countries. Peace has blessed Europe and America for more than a year but in Western Asia conditions more frightful than any war time experiences of the martyred populations of Belgium and France still exist. Thousands of women and children escaped massacre by the Turkish soldiers only to face the terrible agonies of death by starvation. At the present time it is estimated that 1,250,000 adults and fully 250,000 orphaned children are completely destitute and in imminent danger of death by starvation and exposure.

The Near East Relief, 1 Madison Avenue, New York, is at present the only organization giving aid to these suffering people and lack of funds still prevents the reaching of more than a small part of the stricken people.

Wilson Approves Dismissal Of Capt. Chamberlain, 'Hero'

Washington, Feb. 11.—President Wilson has approved the dismissal of Captain E. G. Chamberlain, Marine Corps, of San Antonio, under a court-martial sentence imposed in London in May, 1919, following the officer's conviction of "falsehood" and "scandalous conduct" in connection with his claims as to exploits as a volunteer aviator with a British aerial bombing group in France.

Chamberlain said, it was alleged, that he was to receive the British Victoria Cross and the French Legion of Honor for his work.

He was attached to the British air service.

HUGE DEFICIT FOR AUSTRIA

Vienna, Feb. 11.—A deficit of 40,000,000,000 crowns is shown in the supplementary budget of the Austrian Government for the fiscal year.

If the demands of the civil servants now pending are granted, providing for an increase of 5,000 crowns for each employe monthly, it is estimated that the deficit will be increased to 55,000,000,000 crowns.

WOLFE PAPERS ARE SOLD

Documents Dealing With Capture of Quebec Remain in London

London, Feb. 11.—Official letters by General Monckton, who was with Wolfe at the capture of Quebec, and other historical documents were sold at Sotheby's yesterday for 5,050 pounds. They were bought by Messrs. Quaritch, acting, it is understood, on behalf of Sir Loicester Harmsworth.

The papers include secret instructions to General Wolfe as to his movements against Quebec, as well as general statements about his campaign. The collection will remain in London.

WANTS HIS HANGING PUBLIC

Chicago, Feb. 11.—Edward Brislane, sentenced to be hanged Friday for the murder of William Mills, motion picture theatre manager, wants the execution to take place in Grant Park, instead of the jail," so that all the world may see," as he said, in a letter to Sheriff Charles W. Peters, made public yesterday.

Brislane argued in his letter that Sheriff Peters was wrong in contending that the execution of criminals before the public gaze would act as a deterrent on crime. "I don't think 5 per cent of the people who demand capital punishments will be able to stick it out Friday, but there will be less talk and more thinking afterwards," said the Brislane letter.

W. R. Hearst Asks Injunction Here Against Credits to Foreign Nations

Washington, D. C. Feb. 11.—William Randolph Hearst, in his capacity as a taxpayer of the United States, yesterday filed in the District Supreme Court a suit for an injunction to prevent David F. Houston, secretary of the Treasury, from establishing any credits for the use and benefit of any foreign government and from making any cash advances out of the Treasury or funds of the United States to the governments of Czechoslovakia, France, Greece, Italy, Liberia or any other foreign country.

Justice Hitz issued a rule on Secretary Houston to show cause February 21 why an injunction should not be granted.

Mr. Hearst sets forth the acts of Congress passed during the war providing for bond issues to the total of $10,000,000,000 to establish credits and make advances to foreign governments for the purpose of prosecuting the war. He is informed, he states, that such advances and credits now total $9,580,823,677.18, leaving a balance of the authorized issues of $419,176,322.82.

ASKS FIRM BE DISSOLVED

One Partner Files Suit in District Supreme Court

Murray K. Kanai Coff has filed suit in the District Supreme Court for the dissolution of a partnership with Mayo C. Mitchell.

The plaintiff says he answered an advertisement under business opportunities for a partner in a publishing business, and on alleged misrepresentation, he say, he paid the defendant $2,000 for a half interest in the business.

The terms of the contract were not carried out, he tells the court, and asks for the return of the $2,000. Attorneys Jefferds and Dutton represent the plaintiff.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No pains, no griping, no injury to the gums or danger from acid foods—yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "logy" and "heavy." Note how they clear clouded brain and perk up the spirits.

WHISKY BANDITS KILL ONE, BLACKJACK TWO

Trenton, N. J., Feb. 11.—Leo Salamandra, wholesale bottler, of this city, was slain, and his brother, Tito Salamandra, and Charles Shoemaker were severely blackjacked last night when six automobile bandits attacked them near Rocky and stole a truck loaded with whisky they were bringing to this city from New Brunswick. One of the bandits jumped on the truck after throwing the occupants to the ground and drove away with the liquor.

Five of the hold up men started back toward New Brunswick and when near Franklin Park the car was ditched, one of them being killed.

The bandits occupied a motorcar bearing a New Jersey license which is owned by a resident of Newark.

SOUND KIDNEYS SAVE SUFFERING

The hustle and bustle of modern life cause weak kidneys. Overwork and worry invariably create poison faster than the weakened kidneys can filter it from the blood. Pain in the back, nervousness, and lack of ambition are the first warnings that the kidneys are deranged and for these conditions Warner's Safe Kidney and Liver Remedy should be used for beneficial action. For 50 years this dependable medicine has proved itself beneficial for kidney disease and its oftimes terrible effects. Here's an instance of its remarkable efficacy:

"I wish to say that your remedies have been used in our family for fifteen years. We are never without a bottle of Warner's Safe Kidney and Liver Remedy in our home, and it has saved many a doctor's bill. It is a wonderful medicine for all diseases of the kidneys and liver."—(Signed) Florence E. Schmidt, R. F. D. No. 1, Dunkirk, Ohio.

Warner's Safe Kidney and Liver Remedy contains no harmful ingredients and should be used when the kidneys need attention. Sold by Gibson's Drug Store. Sample sent on receipt of ten cents. Warner's Safe Remedies Co., Dept. 638 Rochester, N. Y.

"LANGUID" THAT'S THE WORD

Not Sick Exactly, Just Seem to Have No Ambition

An Awful Feeling Seldom Necessary

Pepto-Mangan, The Red Blood Builder, Does Away With Langour

If you don't feel like doing things, you won't. If you wonder where some people get all their energy, the answer is from good food which in turn makes rich, red blood.

If your food does not give the nourishment and vigor it should, it is most likely that your blood is so weak that it needs a little extra help for a time to build it up to normal strength.

Thousands of men and women have been restored to vigorous health and lasting happiness by Gude's Pepto-Mangan. This beneficial blood tonic contains the very properties so vitally needed to improve the blood. Pepto-Mangan, if taken for a few weeks, will enrich the blood and create thousands of the tiny red blood cells that are so necessary to carry nourishment and strength to every part of the body.

Be sure to ask your druggist for "Gude's" when you order Pepto-Mangan. For convenience it is prepared in liquid and tablet form, both possessing exactly the same medicinal properties. "Gude's" is the genuine Pepto-Mangan. Look for the name "Gude's" on the package.

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister.

Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Gently massage Musterole in with the finger-tips. See how quickly it brings relief—how speedily the pain disappears.

Use Musterole for sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

Leopard Cannot Change Spots

Mr. Dodson, the "Liver Tone" Man, Tells the Treachery of Calomel.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynimite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel billious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It can not be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. Give it to the children because it is perfectly harmless and doesn't gripe.

RICH DREAM PUNCTURED

A punctured dream of wealth, in which racing green goods men at Miami, Fla., a mythical hotel in Pittsburgh and a vanished bank roll of $16,000 played a part, was related to the police here yesterday by Frank F. Reiss, a retired merchant of New York.

Reiss, the police said, reported that while in Miami for his health, he had met certain strangers of pleasing presence and convincing tongue, who told him how much money could be made in the racing game. He intrusted to them $16,000 in real cash, he reported, agreeing to meet his allies in a Pittsburgh hotel they named.

But there was no such hotel in all Pittsburgh, Reiss found, and he stopped off to tell the police here about it before again seeking the trail of the $16,000 in Miami.

HIS MEALS

Mr. J. E. Powell, the Popular Fireman of No. 5 Annex Fire Department, Portsmouth, Virginia, Tells of the Good That Re-Cu-Ma Has Done Him. Could Not Keep Food on His Stomach Before Its Use. Now Eats as He Pleases.

Mr. Powell says "Re-Cu-Ma is the best medicine I ever saw. I was troubled with indigestion. I could not eat with any comfort Then I tried one bottle of Re-Cu-Ma and it has done me much good. I can now eat as I wish without inconvenience. I used to be very hungry and anxious for meals, but everything I ate made me sick and I could not retain it on my stomach more than an hour or so."

Re-Cu-Ma is sold in Alexandria by the Rexall Drug Store and all good druggists. It is sold under an absolute four-day offer which means that you try Re-Cu-Ma with the understanding that if at the end of four days you do not show material improvement you can take the bottle of Re-Cu-Ma back to the druggist and he will give you every cent you paid for it. There couldn't be a fairer offer. If you are suffering take advantage of it.

Re-Cu-Ma, through its action on the liver, kidneys and blood, brings strength and stamina to the entire system.

AMERICAN LEGION NEWS AND NOTES

The Virginia Department of the American Legion having set 15,000 paid-up members as its goal before March 1, every local post throughout the State is working to obtain as many new members as possible. The membership drive will be brought to a close on February 22, George Washington's birthday, and there now remains litle time in which to reach the goal. Department officers are confident that the desired number of new members will be secured.

In closing the membership drive on Washington's birthday, the Virginia Department of the Legion will celebrate that event with appropriate exercises and the initiation of the new members in the soldiers' and sailors' organization "for God and country." Instructions have been sent out from department headquarters in Richmond to all local posts suggesting that the proper exercises be held.

The Virginia Department is also sending to the local posts a form of initiation ceremony, which was originally adopted by the Norfolk post but which was found so good as to warrant its adoption by other posts if they so desire. The ceremony has the approval of Robert T. Barton, of Winchester, the department commander, and the ex-service men after repeating the preamble to the constitution of the Legion, will recite "The American's Creed," which is as follows:

"I believe in the United States of America as a government of the people, by the people, for the people; whose just powers are derived from the consent of the government; a democracy in a republic; a Sovereign Nation of many sovereign states; a perfect union, one and inseparable; established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes."

"I therefore believe it is my duty to my country to love it, to support its constiuttion, to obey its laws; to respect its flag, to defend it against all enemies."

Dry Ships Inside U. S. 3-Mile Limit Puzzles Britons

London, Feb. 11.—If the United States government insists on enforcing the prohibition law within the three mile limit and preventing ships within its territory having intoxicants aboard under seal or otherwise it likely will find itself in a suit to determine this new point of international law.

Shipping people in London were astounded when they read the Washington reports yesterday that the United States would attempt to keep liquor off British passenger vessels when near the United States shores. Students of international law said it raised an entirely new point.

"Should the United States have such powers and intend to enforce them it would mean our passenger vessels would have to call at Halifax, outward bound, and dump all their liquors there and pick them up on the trip homeward," said a White Star Line official. "The only other alternative would be to be run bone dry, which is hardly likely."

Other shipping people did not believe the United States would attempt to take such action, but if it did were willing to go to any length to get an international ruling.

Cost of War Probes Stirs Democratic Ire

Washington, Feb. 11.—The House today staged a sharp partisan debate over the cost of the investigations into the conduct of the war engineered by the Republican majority, and it was developed that already the expenses of the investigating committee have exceeded $200,000.

Representative James F. Byrnes, of South Carolina, member of the Appropriations Committee, said this sum was but a starter and that "there are unpaid obligations no one dares to estimate."

Criticism of the fact that one of the investigating subcommittees, comprising three lawyers, had contracted with an outside attorney to assist it at a salary of $200,000 per year brought on one of the livelier clashes of the discussion.

Trolley Strikes Quiet State Police on Duty.

Albany, N. Y., Feb. 11—Comparative quiet marked the trolley strike situation in Albany, Troy and nearby cities yesterday, Anticipation of continued serious rioting in Troy led Mayor Fleming to request Gov. Miller to order State police in that city and today they are on duty.

Practical cessation of serious disorders today has deferred temporarily any demands for State troops to help local authorities in dealing with a situation that is momentarily expected to grow worse.

Skin Sufferers Do Not Want Mere Temporary Relief

Of course, if you are content to have only temporary relief from the terrifying itching and burning of fiery, flaming skin diseases, then you are satisfied to remain a slave to ointments, lotions and other local remedies applied to the surface of the skin.

Real genuine relief from eczema, tetter, scaly eruptions or any other form of skin irritations cannot be expected until you free your blood of the germs which cause these disorders. And for this purpose there is no remedy that gives more satisfactory results than S.S.S., the fine old blood remedy that goes down to the source of every blood disorder and routs out the germs which cause the trouble.

S.S.S. is sold by all druggists. Begin taking it today, and if you will write a complete history of your case, our medical director will give you expert advice without charge. Address Chief Medical Adviser, 155 Swift Laboratory, Atlanta, Ga.
